# Projection Mapping Flyby

Wenqi Li (Eric)

Oct 12 2017

What is projection mapping?

Refik Anadol, 2014, Ethereal / Architecture as a Canvas Light as a Material

displaying visual content on non traditional surfaces
augmented reality

some cool projects

The cloud machine
Peder Bjurman and composer Leif Jordansson, 2016

box
Bot & Dolly, 2013

unnumbered sparks
Janet Echelman and Aaron Koblin, 2014

May the force be with you
Teo Park, 2014

Mapping is the easiest part.
It's all about content and concept.

ITP classes
Nothing
Magic window and mixed reality
Gabe's summer AR class
ITP summer camp sessions

Tools selection

MadMapper   artists

Resolume & Arena 5   VJ

isadora   theater

Millumin 2   theater

TouchDesigner   studio/agency

Tape
Laser stencil

middlewares

Syphon
An open source Mac OS X technology that allows applications to share frames
A server streams video content to clients
It doesn't work very well in latest chrome and unity3D

OSC
protocol of communication for sending data through apps
mobile devices apps: touchosc, gyrosc

Hardwares
Projector central: projector calculator, with everything about projectors
Dualhead2GO/Triplehead2GO: external multi-display adapter adds up to three projectors

creative coding sketch mapping

super glue combo

Processing + madMapper

JS graphics libs combo

P5.js/THREE.js + Syphoner + madMapper

JavaScript + maptastic.js

Trick: Open Chrome without browser bars
/Applications/Google\ Chrome.app/Contents/MacOS/Google\ Chrome --app="http://www.google.com"

demos

basic video mapping in MadMapper

projection mapping p5 sketch via syphon & maptastic.js

If we have enough time,

projection mapping Processing sketch

Intro to modul8

How to interact with projection mapping sketch using mobile phones

How to do 360 video streaming projection mapping

A few more things

Pcom Light

`madMapper + DMX + Light`

VJ / Motion Graphic Designer

`Modul8 + (Vezer) + madMapper`

transform VR to AR

`Unity3D / Unreal + madMapper`

Thank you!
& TNO!
